

# Work for us

**The Barts Cancer Institute offers you a challenging and dynamic working environment where you will receive excellent training and mentorship from world-class researchers.**

We have a proven track record in the provision of high quality clinical and non-clinical training spanning the entire spectrum of career development in cancer research.

We aim to recruit the highest calibre of staff and students, and are committed to providing an excellent working environment to enable individuals to reach their full potential and compete with the best nationally and internationally.

We achieve this by:

- Delivering an appropriate, coherent and comprehensive research training programme leading to a cadre of individuals with high-quality transferable skills.
- Provide strong support both in terms of the quality of the infrastructure and the mentoring.
- Provide a feedback and tracking programme to determine intake, outcome, student destination and career development.

We pride ourselves in having a diverse range of talented and motivated individuals and have various career opportunities throughout the year.

Please visit 'Work For Us' on our website for further information and vacancy listings.

# Work for us

## Working environment

Within the lab there is a strong sense of community, with the emphasis on group driven research work creating a highly collegiate, collaborative and sociable environment.

There is a dedicated social committee who help to organise formal and informal social activities, events and excursions throughout the year, helping you to make the most of the vibrant city of London, in the company of fellow scientists from across the Institute.

## Staff Benefit Package:

- Competitive salary.
- 30 days annual leave, plus UK public holidays and 4 College closure days.
- Defined benefit pension scheme.
- Interest-free season ticket loan.
- Childcare voucher scheme.
- There are excellent opportunities for staff members to further their professional and personal development through the Centre for Academic and Professional Development.
- Travel bursaries and grants for staff to attend and present their research at scientific conferences, nationally and internationally.
